PROFESSIONAL SUMMARY

Final-year BCA student and aspiring Full-Stack Developer with a solid foundation in building web applications using Next.js, Django, and PostgreSQL. I enjoy solving everyday problems through clean code and practical projects. Actively looking for a software engineering internship where I can apply my skills, learn from experienced professionals, and grow alongside a team.

TECHNICAL SKILLS

- Frontend Technologies: React, Next.js , HTML5
- Backend & Databases: Python, Django REST Framework, PostgreSQL
- Tools & Version Control: Git, GitHub, VS Code, REST APIs

KEY PROJECTS

1. **HireTrack - Job Application Tracker**
    - Developed a web application to help users organize and monitor their job applications across various companies.
    - Built a clean dashboard where users can log application statuses, interview dates, and company notes in one place.
    - Created a secure backend database to store user records efficiently, ensuring smooth data retrieval and updates.
2. **FinTrack - Personal Expense Dashboard**
    - Designed a personal finance tracker that allows users to log daily expenses and categorize their spending easily.
    - Built an intuitive, mobile-friendly interface to display monthly spending summaries and budget limits.
    - Implemented reliable data storage and state management to ensure immediate updates when a new transaction is added.

EDUCATION

- Bachelor of Computer Applications (BCA) - Shambhunath College of Education (Expected May 2027)

- Intermediate (12th) - UP Board

- High School (10th) - UP Board
